

Made To Run

Blue Merle

I've been high and I've been low
I've been wandering
Round the city of New Orleans
Summer nights on crowded streets
I've been tearing down the walls around
Me heartFools could not deny
All the things you touch inside
And like the daylight brings the sun
Girl you and me were made to runI left behind a trail of love
In the shadows
On the wall above your bed
With nothing but a quarter moon
And a halo made of stars
Around your headFools could not deny
All the things you touch inside
And like the daylight brings the sun
Girl you and me were made to runIt's like a song that's in your head
It's like a song that's in your head
You were the song in my head
That I fould
When the song I'd been singing
All alongDriving fast and tracing lines
In the dust around
The memory of your love
While far away you're sleeping sound
Waiting for my headlights
In your driveFools could not deny
All the things you touch inside
And like the daylight needs the sun
Girl you are me were made
Girl you are me were made
Girl you are me were made to run
