Sans Fear

Pete Yorn

I wake still shaking from a dream
The life I want to lead
But I'm not starting all brand new
Get cool in losing you
Oh, we know
At least we hope so
O we know there's something better than beforeAnd I can never change you
I can only change my viewWe tried, we seen what is true
I hate to bring this up
Normalcy, just don't agree with me
I hate this big disguise
Oh now, I go to sleep my dear
In your arms for the final time no fearCause I will never change you
I will never change you
I will only change my viewAnd my eyes are open
I wish yours could be open too
But something, something, something
Won't let me wake youWhile awake, still shaking from the dream
The life I have to lead
Every night I toss and turn I try
To open up your eyes
Open up your eyes
Your eyesI wake still shaking from a dream
The life I want to lead
But I'm not starting all brand new
