

# Reggae In My Head

[Ziggy Marley](#)

Yeah reggae in my head, reggae in my head, reggae in my head  
Sitting by the river listening to her songs  
She played it all night long  
She brought me from defeat hypnotized by the beat  
On the rocks I made my bed she played reggae in my head Reggae in my head, reggae in my head, reggae in my  
head  
Cities of oppression there is no imagination  
Oh to be wild and free again  
A world without dreams is lost it seems  
In the prison of known realities so I say I got reggae in my head, reggae in my head, I put reggae in my head  
Oh what a wonderful world this could be only if we live in peace  
Dancing to this vibration this is my emotion  
Sitting by the river listening to her songs  
She played it all night long  
She brought me from defeat hypnotized by the beat On the rocks I made my bed, she played reggae in my head  
Reggae in my head, reggae in my head, reggae in my head  
I got reggae in my head, reggae in my head, I want reggae in my head  
I got reggae in my head, I need reggae in my head, reggae in my head
