Have A Look

Vanessa Amorosi

Never thought that you?d be mine
I just stayed there to be kind
Now you say that you?re leaving me
Well, I don?t really care
I have other things on my mind
Then when you tell me to just get out
Well, this isn?t just your house
Well, I thought I sort of told you
I guess you didn?t listen, baby
Now that I?m looking for your time
Just to see if I?m on your mind
I think we?re really over now
I saw your girlfriend
You and her seem to be fine
Now that we are through
I realize I want you
I try to get you back
But you don?t need me
Baby, what you thinking now, baby?
Ooh, baby, have a look, have a look
Look at me
Baby, what you thinking now, baby?
Ooh, baby, I took a change now
Baby, baby, baby, baby
I, I know that I?ve done some things wrong
I never left ?cause I wasn?t strong
Now that we?re over
I don?t think that I could even go on
Well, I?ve changed my naughty ways
Well, I?m telling you I?ve changed
Just come back and stop the crap
Work it out with me
Well, now that we are through
I realize I want, I want you
I try to get you back
But you don?t need me
Baby, what you thinking now baby?

Ooh, baby, have a look, have a look

Look at me
Baby, what you thinking now baby?
Ooh, baby, I took a change now
Baby, baby, baby, baby
I changed my mind
I really changed everything that I had
I?m even walking towards you now
And you won?t look at me
And I?m feeling really used up
Yeah, I?m getting really mad about it
I changed everything for you, and only for you
You won?t even look at, look at me
Oh yeah, look at me, yeah
I know you told your friends I?m a bitch
And when we were together, I didn?t care a bit
But now that we?re over, I am trying hard
To make you see that I exist
Well, it?s a fact, I need you
I want you back, just change your mind
And we?ll be fine, work it out with me
Now that we are through
I realize I want you more
I try to get you back
But you don?t need me
Baby, what you thinking now, baby?
Ooh, baby, have a look, have a look
Look at me
Baby, what you thinking now, baby?
Ooh baby, I took a change now
Baby, baby, baby, baby
Baby, what you thinking now, baby?
What you think now, baby?
Have a look, have a look
Look at me, baby
