Baggage Claim

Delbert McClinton

I have been dragging around
your sensitive ego
Making sure that your bags arrive on time
For the dog and pony show
a leather suit case like a brick
it kinda makes it hard to get a good grip
I drop your troubles off at the conveyor belt
I hand you a ticket to go get it your self
At the baggage claim
you got a lot of luggage in your name
When you hit the ground check the lost and found
cuz it aint my problem now I can't carry it all
I got a lot of troubles on my own
Its all over the yard and in the trunk of the car
I'm packing it in, so come and get it
If it aint obvious what has set me off today
behind every women scorned is a man
who made her that way
Go on and take your little business trip
with that sweet little habit that you can't kick
You better call your momma when ya get to town
cuz I aint gonna be hanging around

At the baggage claim
you got a lot of luggage in your name
When you hit the ground check the lost and found
cuz it aint my problem now I can't carry it all
I got a lot of troubles on my own
Its all over the yard and in the trunk of the car
I'm packing it in, so come and get it
come get it
Come and pick it up
before I blow it up in flames
you better pick it up
pick it up
Baby I mean everything
at the baggage claim
you got a lot of luggage in your name
When you hit the ground check the lost and found

cuz it aint my problem now I can't carry it all
I got a lot of troubles on my own
Its all over the yard and in the trunk of the car
I'm packing it in, so come and get it
