

# Eyes Like Diamonds

Massari

Eyes like diamonds  
Like diamondsShe's lighting up the floor  
Like the sun rising up  
And everywhere she goes  
Her light is shiningAnd just one look at her  
You can never get enough  
I know she got a lot of players tryingTo get to know her  
They gon' keep on dance right it up  
They tryna holla at her  
But she knows about the game  
The swag is all I got to knowJust what she's thinking of  
Gotta make that move  
Back it up shorty  
Tell me what's your name  
Name, name, nameShe's got eyes like diamonds  
The way she shines  
And the light is so blinding  
She's got eyes like diamondsAnd in the dark  
She's as bright as the lightning  
She's got eyes like diamonds  
She's got eyes like diamonds  
She's got eyes like diamondsAnd in the dark  
She's as bright as the lightningNow if things don't feel the same  
There's so much more that I wanna do  
In her eyes I know I'd stay foreverThe way she moves  
Her body's like a dream come true  
There's something so magical about herTo get to know her  
They gon' keep on dance right it up  
They tryna holla at herBut she knows about the game  
The swag is all I got to know  
Just what she's thinking ofGotta make that move  
Back it up shorty  
Tell me what's your name  
Name, name, nameShe's got eyes like diamonds  
The way she shines  
And the light is so blinding  
She's got eyes like diamondsAnd in the dark  
She's as bright as the lightning  
She's got eyes like diamonds

She's got eyes like diamonds  
She's got eyes like diamonds And in the dark  
She's as bright as the lightning It's the way she shines so bright  
She's got eyes like diamonds  
She's got the star line in her eyes  
She's got eyes like diamonds  
And forever she will shine She's got eyes like diamonds  
The way she shines  
And the light is so blinding  
She's got eyes like diamonds And in the dark  
She's as bright as the lightning  
She's got eyes like diamonds  
She's got eyes like diamonds  
She's got eyes like diamonds And in the dark  
She's as bright as the lightning She's got eyes like diamonds  
The way she shines  
And the light is so blinding  
She's got eyes like diamonds And in the dark  
She's as bright as the lightning  
She's got eyes like diamonds  
She's got eyes like diamonds  
She's got eyes like diamonds And in the dark  
She's as bright as the lightning
