

# Fivetweezy

## Kj-52

It's Fivetweezy, KJ Fivetweezy

It's Fivetweezy

Well, I've been gone but I'm back again

It's been too long, you wondering where I been

Well, I betcha I though I would pack it in

Since I got dissed on MTV for dear slim

Aw, man why'd y'all play me?

TRL, you drive me crazy

Now everybody really hates me

I thought we were friends, Carson Daley?

So when I tried out for American Idol

I got up and sang for Simon Cowell

But he said I was absolutely horrible

He said I was worse than William Hung, too

Now what do I do, please help me, could ya?

I keep getting punk'd like Ashton Kutcher

Since my names still bashed and butchered

I'm a just changing, so listen would ya

It's Fivetweezy, KJ Fivetweezy

It's Fivetweezy

That's what my friends just call me

It's Fivetweezy, KJ Fivetweezy

It's Fivetweezy

That's what my friends just call me

Now I don't know if I'm past my prime

I'm feeling old, I just turned twenty-nine

It's crazy, I think I lost my mind

'Cause lately it shows I forget my uhh

Sometimes I feel like my brain is missing

Sometimes I feel like Jessica Simpson

Don't know if tuna's fish or chicken

I told ya it's five two, nobody listens

Okay, you don't believe that it's true

Even my mom still thinks it's fifty-two

Now I tried to explain but it's no use

For at least the kids say, man you're cool

No, really man, I can't complain

Kids take puff paint and write my name

On their T-shirts and they be like  
That's why it's time for me to change  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me  
Now I used to come through my system blasting  
People couldn't miss it when I tried to pass them  
In a Honda civic with the muffler dragging  
Shoes off, hairy feet like Bilbo Baggins  
Back when I was living wrong  
I need to get tipsy like J-Kwon  
But nowadays all I need is God  
And a mic and a DJ and my iPod  
Alright put your dance shoes on  
Everybody just get your groove on  
We'll rock the party till the break of dawn  
And even get your grandma to sing along  
Now what I say, don't take this lightly  
God runs things, not Bruce Almighty  
He's Jesus, the only one I need  
Now Fivetweezy, y'all know what I mean  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me  
It's Fivetweezy, KJ Fivetweezy  
It's Fivetweezy  
That's what my friends just call me
