

So What If It Is

The Foreign Exchange

Everybody's got a song and dance about
What it means the struggle is to go about
No one thinks that there are other problems this is true
It's truePeople running scared amongst these changed times
Recession, depression, unemployed and blind
Everybody needs a mental healing, yes they do
They do
Now's the time to raise your voice and lift your hand
Show your love to every woman, every man
Nobody believes things will get better
But I do, I doDon't you worry about the pain infest today just
Remember to live
Don't be afraid, it's not the end of the world
So, so, so what if it is
So what if it is, so what if it is,
So what if it is, so what if it is,Everybody's searching try to find a way
Reaching through the darkness for a brighter day
Looking for the sunshine, in the sky to smile so blue, so blue
Now's the time to raise your voice and lift your hands
Show your love to every woman every man
Nobody believes things will get better
But I do, I doDon't you worry about the pain infest today just
Remember to live
Don't be afraid, it's not the end of the world
So, so, so what if it is
So what if it is, so what if it is,
So what if it is, so what if it is,People running scared amongst these changed times
Recession, depression, unemployed and blind
Everybody needs a mental healing, yes they do
They do
Now's the time to raise your voice and lift your hand
Show your love to every woman, every man
Nobody believes things will get better
But I do, I doDon't you worry about the pain infest today just
Remember to live
Don't be afraid, it's not the end of the world
So, so, so what if it is
So what if it is, so what if it is,
So what if it is, so what if it is.
