

Faultline

the stonewolf band

Cast off, on a distant shore
no you aint gotta take no shame, no not from anyone
Now its cold, come october rain
Guide us beacon light, towards middle age
If your souls tripping at the door, minor man crawl
no you're not alright
your pistols working up a draw trigger finger raw, till it burns...listen now
Spend your whole life living on a faultline
Held back now tip-toeing on a straight line
spend your whole life living on a faultline
don't be afraid...
yes its gonna be alright
yea..Get off, i aint made of stone, when i look back at my life, my life, sometimes i wish i was
If you're drunk stumbling out of bars cursing at the stars no you aint alone
don't look back heres a second chance brother take my hand, an get up, up ,upplease slow it down, slow it
down, coz life aint fair for everyone
get out dancing on the street lights, takin off our clothes under the moonlight, we are dancing oh
spend your whole life living on a faultline
you're held back now tip-toeing on a straight-line
spend your whole life living on a faultline
held back now tiptoeing on a straight line
spend your whole life living on a faultline
don't be afraid, no no no
don't be afraidyea...
know its gonna be alright x 5
