# Lost In Time

## Nocturnal Rites

I'm waking up all alone
Not knowing where I am
Is this a dream or is this time for real
Will I forget about the pastOr will I end this wayIf this is the way, how will I find it
Give me a sign I'll carry onStill lost in time
Forever
Forever lost in timeStanding here in a world so cold
This silence makes me mad
I wander endless miles to find the truth
My future lies ahead
I got this second chance
