

Panic

Sublime

So many people runnin
Don't know where they're goin.
Panic and panic and panic
Showing what (side is wrong)
We've got the reason
if you want to know it.
Don't you wish your world was mine?
My only motive
Do or nothing
We've got the reason
if you really wanna show it
I (doubt) that everybody knows
I'm really fucking ***
Don't you wish your world was mine?
Don't you wish your....

You open doors and close them
quicker than the eyes of most.
On the real, let's show them. (it's chosen)
It's time for reaction
I realize what's wrong..wrong with your life
quicker than the eyes of most.
On the real, it's go time.

Yet you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.

But that's ok
That's ok
That's ok
Stop right there.....
