Live Again

Schoolboy Q

Don't fear even though you're at a loss
I'm numb, a shell of empty thoughts
But you glow, you stretch and pull me out
Does that trouble you?
Does that trouble you?
Love me, hate me
Make me live again
I need you around
Heal me, hurt me
Make me live again
I want you around
So long I never had experienced
This bliss so how could I resist?
And I'm fine a little light-headed
Does that worry you?
I didn't mean to worry you
Love me, hate me
Make me live again
I need you around
Heal me, hurt me
Make me live again
I want you around
Now, retreating from the light
I love it when we fight
It makes me think
At least you still care
Give up, you're not going anywhere
Moonlight, illuminates your stare
And it's great, captivating you
Does that trouble you?
Do I trouble you?
Love me, hate me
Make me live again
I need you around
Heal me, hurt me
Make me live again
I want you around
Do you live again?
Can you live again?

Make me live again
Make me live again
Make me live again
