Unforgiven

Creed

I kept up with the prophecy you spoke I kept up with the message inside Lost sight of the irony of twisted faith Lost sight of my soul and it's voidThink I, think I'm unforgiven to this world Think I, think I'm unforgiven to this world [Incomprehensible]Took a chance at deceiving myself To share in the consequence of lies Childish with my reasoning an' pride Godless to the extent that I diedThink I, think I'm unforgiven to this world Think I, think I'm unforgiven to this world Think I'm unforgivenNo more raging innocence No more raging innocence No more raging innocence No more raging innocenceStep inside the light and see The fear of God burn inside of me The gold was put to flame, to kill To burn, to mold it's purityThink I, think I'm unforgiven to this world Think I, think I'm unforgiven to this world Think I'm unforgiven
