Fields of Rape

Saigon Kick

There is danger in the fields of rape
Not too far from where you walk
There is danger on the path you take
Too late, you've gone too farThere's meaning in these words of hate
Hidden, yet to find
There's children behind an iron gate
Hiding swollen eyesChange these fields of rape
Wash them away like the morning rain on your face
We gotta change these fields of rape
Take me away from the burning pain of this placeThere is hunting in the fields of rape
And we've become the game
There is running in the fields of rape
Abolish all mankindThere is crying on the African soil
And life is hard to keep
There is dying in a Bosnian town
A girl of just sixteenChange these fields of rape
Wash them away like the morning rain on your face
We gotta change these fields of rape
Take me away from the burning pain of this placeThere is danger in the fields of rape
Not too far from where you walk
There is danger on the path you take
Too late, you've gone too farThere's meaning in these words of hate
Hidden, yet to find
There's children behind an iron gate
Hiding swollen eyesWe gotta change these fields of rape
Wash them away like the morning rain on your face
We gotta change these fields of rape
Take me away from the burning pain of this placeWe gotta change these fields of rape
Change these fields of rape
We gotta change these fields of rape
We gotta change these fields of rape
