

# Happy House

## The Juan Maclean

You came to me from my history  
to sweep all the dust away  
No, I never thought I would see today  
So I thank yu for just being so damn  
excellent

You are so excellent  
You saved me from a rainy day  
And melted all the clouds in the sky  
Yes, I always wished it could be this good  
So I thank you for just being so damn  
excellent

You are so excellent  
You still held me near when I was far away  
Waiting for our sunny day  
Living your life but always in mine  
Thank you for just being so damn  
excellent

you are so excellent  
You brought me home to this happy house  
You're the reason for the width of my smile  
Stay with me, don't lose me now  
So I can thank you for just being so damn  
excellent

You are so excellent  
excellent

You are so excellent  
Launch me into space

---
