

Now That You're Gone

Ella May Saison

If only you could have stayed a little longer
If I have known this feeling then I could have been much stronger
And the hurt I feel right now would be so far away
Now all the memories tell me
I should have made you stay

You said will make it last forever
Maybe you could have been a little stronger too
Now I know that sometimes promises just fade away
I need you here beside me
It's just no good to feel this way

Now that you're gone
I wish you never had to go
Now that you're gone
This pain I feel inside me
Just goes on and on
Now I know I need you
And I never should have let you go

You said will make it last forever
Maybe you could have been a little stronger too
Now I know that sometimes promises just fade away
I need you here beside me
It's just no good to feel this way

Now that you're gone
I wish you never had to go
Now that you're gone
This pain I feel inside me
Just goes on and on
Now I know I need you
And I never should have let you go

Now that you're gone
I wish you never had to go
Now that you're gone
This pain I feel inside me
Just goes on and on
Now I know I need you

And I never should have let you go

No no no

I never should have let you go
