

You Found Me

True Vibe

I was all on my own
With nowhere to run to
On the day You found me
And the more that I pray The more that I hear You
And the more I believe
That no one else could
Hold me like You do
We're never apart I want to tell You
I want to let You know
And I want to show
You the way I feel for You I didn't know You
Now anyone can see
You are my God
And You found me I will never deny the way
That You lead me
With the love that's so rare
So I made up my mind
Whenever You need me I will always be there
And no one else could
Hold me like You do
We're never apart And every day I'm gonna
Say how I'm feeling
In every way I want
To show how I care My life was all wrong
But I know from now on
I'll never stop loving You
