Starlight Drive

Last Winter

Never thought life would change me. The boy who dreams in the stratosphere.Time is forgiving so let it go.
Time is forgiving so let it go.
Because you're gonna find out.
When it all comes down.
We were better off when we were ignorant and dreaming on Starlight Drive.
Ignorance is bliss now so let it go.
Ignorant and dreaming on Starlight Drive.
Ignorance is bliss now let go so...
So we can leave today and we can drive all night.
Under the atlas of starlit skies.
And if we leave today we can drive all night.Forgiving daylight. Living life in our world, a beauty built with honest hands.Time is forgiving so let it go.
Time is forgiving so let it go.
Because you're gonna find out.
When it all comes down.
We were better off when we were ignorant and dreaming on Starlight Drive.
Ignorance is bliss now so let it go.
Ignorant and dreaming on Starlight Drive.
Ignorance is bliss now let go so...
So we can leave today and we can drive all night.
Under the atlas of starlit skies.
And if we leave today we can drive all night.
Under the cover of satellites.Wide awake and dreaming on Starlight Drive.
Wide awake and dreaming on Starlight Drive.So we can leave today and we can drive all night.
Under the atlas of starlit skies.
And if we leave today we can drive all night.
Under the cover of satellites.
So if we leave today we can drive all night.
Under the ashes of fireflies.
Forgiving daylight...
