

# Flight Response

## Days of the New

Out of the blue bona fide response of the brain  
Intense adrenaline flow, flow out of control  
Sudden jolt freezing in fear trauma road road  
Traveling real pain is my pill ride it out if you can, canDilation of eyes panic surprise I've lost my pill now I'm  
numb, numb  
Down on my knees wanting to die  
Mistaken beliefs of real life, life prepare for the flight  
Reward your misguide, get off your knees time to hideWhen everything in your life is good then it got bad  
Would you hate me so what am I supposed to do about it, about it  
Yeah, I'm running insane, running insane, running insaneColorful shapes, a vivid mistake I've lost intake  
Give my sore heart a new soul, soul nerves play my role  
Im not whole give me the soul now I'll runSun running insane follow the pain  
Mistaken beliefs of real life, life  
Prepare for the flight reward your misguide  
Get off your knees time to flyWhen everything in your life is good then it got bad  
Would you hate me so what am I supposed to do about it, about it  
Yeah, I'm running insane, running insane, running insaneWell I won't be safe again, I won't I won't  
Well I won't be safe again, I won't I won't  
Well I won't be safe again, I won't I won't  
...
