Down For the Third Time

Bobby Caldwell

Left your mark in a distant past
But somehow it's all gone now
Good things can never lastYou are down for the third time
And you spent your change
Memories of your prime
Make life seem so strangeThrough your life you've been well to do
Times have changed and rearranged
Now no one remembers youYou are down for the third time
And you spent your change
Daddy won't mind
When you rearrange your life
