

# Down For the Third Time

[Bobby Caldwell](#)

Left your mark in a distant past  
But somehow it's all gone now  
Good things can never last You are down for the third time  
And you spent your change  
Memories of your prime  
Make life seem so strange Through your life you've been well to do  
Times have changed and rearranged  
Now no one remembers you You are down for the third time  
And you spent your change  
Daddy won't mind  
When you rearrange your life
