

# Wolves At the Door

[\*\*David Bazan\*\*](#)

It looks like I found heaven  
It's on the tip of my tongue  
And it reminded me of  
All the times I was youngI'm catching rain in my open mouth  
I used to smile 'til the day I found out  
I have no idea who the hell I've become  
It's not who I was, it's not who I loveI wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Has thousands of needles poking at my skinI lie in bed to the sound  
Of the wolves at my door  
They are speaking in tongues  
Oh, they join on my floorI never thought it would come to this  
Eyes more yellow than my own piss  
They're making rounds just to even the score  
Just open the door, just open the doorI wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Is littered with razorblades  
Littered with razorblades, blades  
Littered with razorbladesI can't hold on, the path is clear  
I can't ignore what's been building for years  
There's wolves at the door, I won't hide here in fear  
Wolves at the doorI look at myself and the things that I've done  
Stare away from the mirror and into the sun  
I forgave myself for all of my mistakes  
When will I learn? When will I, when will I burn?I wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Is littered with razorbladesI gave up on myself a long time to care  
The black clouds that swallowed, spit me out whole  
Sometimes I feel like I'm losing my soul  
At least that means I still have a soul after all
