Diablo Handshake

Dragpipe

I never liked you
I never cared if
I was open (if I was open)
By the way this is
My answer (is my answer)
All the time that
You were falling (you were falling)On the way to the battle
I'm living it my way
Living with the sickness created in you
I wanna love you forever
Love you forever
Even though there's weakness created in you
Gonna battle it my way
Battle it my way
Even though it's endless to see it in you
Gonna love you forever
Love you forever
Even though I'll never believe what's in youI never liked you
I never cared
I never cared if I was right
And you were ready
I never liked you
I never cared
I never liked youI know that it's fatal
To live with this evilI never thought that I would end up on the ground
Searching skies just to faze her
I hope to amaze her
I never thought that I would end up on the ground
Gonna battle it my way
Battle it my way
Even though it's endless to see it in you
Gonna love you forever
Love you forever
I never thought that I would end up on the groundI never liked you
I never cared
I never liked if I were right
And you were ready
I never liked you
I never cared

I never liked youJust in time to get it
Just in time to get it
Battle it my way
Battle it my way
I am just as fucked up as you are
