

Grateful

Patti Smith

Ours is just another skin
Simply slips away
You can rise above it
It will shed easilyIt all will come out fine
I've learned it line by lineOne common wire
One silver thread
All that you desire
Rolls on aheadLike a ship in a bottle
Held up to the sun
Sails ain't going nowhere
You can count everyoneUntil it crashes unto the earth
Simply slips away
You can hide in the open
Or just disappearIt all will come out fine
I've learned it line by lineOne common wire
One silver thread
All that you desire
Rolls on aheadOurs is just a craving
And a twist of the wristWill undo the stopper
With abrupt tenderness
Die little sparrow
And awake singingIt all will come out fine
I've learned it line by lineOne common wire
One silver thread
All that you desire
Rolls on ahead
