

Ooh La La

KMFDM

I survived glorious massacre
Stared death in the face
Shared human flesh with Satan's brother
Relived horror, evil and jinx
Ooh la la If there a light at the end of the tunnel
Ready to be scared
Sexy, a hungry, a murder suspect
Ooh la la Voodoo, love goddess
Remains wary
Using scare tactics to sabotage me Fantasize about being free
Bounce back on the beam
Sexy, we are hungry
Loosen up and get dirty And then I felt myself falling insane
Ooh la la
And then I felt myself falling insane
Ooh la la Felt myself falling insane
Felt myself falling insane
Ooh la la
