I Am That Man

Brooks & Dunn

You put your heart up on a shelf
I know it's hard to be by yourself
You need someone that's true and strong
Oh baby someone just came alongI am that man you're trying to find
I am that man you had in mind
And I'll give you all my love till you understand
I won't give up 'cause I know I amTalk is cheap, it ain't worth a dime
So don't talk to me, just give me some time
I'm gonna show you what love can be
My job won't be done until you believeI am that man you're trying to find
I am that man you had in mind
And I'll give you all my love till you understand
I won't give up 'cause I knowI am that man you're trying to find
I am that man you had in mind
And I'll give you all my love till you understand
I won't give up 'cause I know I amNo, I won't give up 'cause I am that man
