Airwave Raid

Lower Class Brats

I can't seem to get the signal I need
I think my radio's broken
there was a time it played so loud
and the speakers they were smokin'
but time moves on, that music is gone
we got a new guitar attack
the airwaves were made for rock n roll
and were gonna take em' backIt's a-a-an airwave raid
It's a-a-an airwave raid
It's a-a-an airwave raid
It's a-a-an airwave raiddon't need your rap or hip hop crap
alternative,disco, funk
you retro fucks are boring cunts
and you're still afraid to play the junk
their filthy lucre bought the #1 spot
so I never even got a vote
you know real punk's an endangered species
gonna shove it down your throatIt's a-a-an airwave raid
It's a-a-an airwave raid
It's a-a-an airwave raid
It's a-a-an airwave raid
