

# Inferiority Complex

Iggy Pop

Standing on the poop deck of a wreck  
Inferiority complex  
Waiting for the tugboat of respect  
Inferiority complex Trying to see the good side of a bad life  
Showing real courage with a sad wife  
Your soul is full of holes air could blow through  
People that you meet don't want to know you People are strange when they don't respect  
Inferiority complex  
People are mean when they get the chance  
Won't anybody have this dance  
People are weird when they don't respect  
Inferiority complex Are you heel or just a toe?  
It's hard to say cause you feel so low The man is eying and you like a suspect  
Inferiority complex  
Your every word is something to correct  
Inferiority complex Everything about you repels sunshine  
Every deep desire leaves you flat lined  
Walking trough the world you leave no traces  
You don't feel a part of any places People are strange when there's no respect  
Inferiority complex  
People are bad when they get the chance  
Won't anybody have this dance  
People are strange when there's no respect  
Inferiority complex It's hard to say when you're down so low  
So low Inferior but not a bore  
Inferior but not a bore  
Inferior but not a bore  
Inferior but not a bore
