Re-birth

Ill Nino

Corre perro come mierda
This is what you get now
You think that you can get away
You little pig
Corre perro come mierda
This is what you get now
You think that you can get away
You little pig
Sucker, nothing left to lose
Nothing left to choose
And suffer, everything you do comes back and
Get what you're gonna get
When you get? What you get?
To live inside of me
Learn what you're gonna learn
When you learn? How to burn?
To live inside of me
Then, I was only just a boy
Dying young and growing old
But I know what I knew was wrong
My whole family lied to me
By their rules, I cannot be
Led by the lies out of my face
Get what you're gonna get
When you get? What you get?
To live inside of me
Learn what you're gonna learn
When you learn? How to burn?
To live inside of me
Nothing you did
You left me here for dead
Something in me
Just let me be
Get what you're gonna get
When you get? What you get?
To live inside of me
Learn what you're gonna learn
When you learn? How to burn?
To live inside of me

If you think you got the answer
Or think again 'cause you know
Better than this yourself
So ask that question to yourself
So ask yourself just who you are
Where you've been? What you know? Where you'll go
Get what you're gonna get
When you get? What you get?
To live inside of me
Learn what you're gonna learn
When you learn? How to burn?
To live inside of me
Nothing you did
You left me here for dead
Something in me just let me be
Nothing you did
You left me here for dead
Something in me just let me be
Corre perro come mierda
This is what you get now
You think that you can get away
You little pig
Corre perro come mierda
This is what you get now
You think that you can get away
You little pig
Corre perro come mierda
This is what you get now
You think that you can get away
You little pig
