

# Street Fight

## Smallpools

Caught in a street fight  
You need a lifeline  
Go on, and use me  
I'll be your Bruce Lee Beaten down  
From high to low  
But that don't make sense to me (sense to me)  
You say this town has broke your bones  
But that don't make sense to me (sense to me) You've been driving through the desert  
Talking to yourself  
I'm supposed to make it right  
So don't leave this way  
You've been running with the devil  
Swinging at your friends  
Your friends  
Your friends  
Yeah, yeah, if you say you're Caught in a street fight  
You need a lifeline  
Go on, and use me  
I'll be your Bruce Lee Under the street lights  
I'll wait a lifetime  
Just like the movies  
I'll be your Bruce Lee (I'll be your Bruce Lee) Hit the ground  
Nobody to hold  
I'll lift you up again (up again)  
Lost and found  
On the side of the road  
I'll bring you back again (back again) You've been driving through the desert  
Talking to yourself  
I'm supposed to make it right  
So don't leave this way  
You've been running with the devil  
Swinging at your friends  
Your friends  
Your friends  
Yeah, yeah, if you say you're Caught in a street fight  
You need a lifeline  
Go on, and use me  
I'll be your Bruce Lee Under the street lights  
I'll wait a lifetime

Just like the movies  
I'll be your Bruce Lee(I'll be your Bruce Lee)  
(I'll be your Bruce Lee)(I'll be your Bruce Lee)  
Caught in a street fight  
You need a lifeline  
Go on, and use me (use me)Caught in a street fight  
You need a lifeline  
Go on, and use me  
I'll be your Bruce LeeUnder the street lights  
I'll wait a lifetime  
Just like the movies  
I'll be your Bruce Lee(I'll be your Bruce Lee)
