

# Best Kept Lies

## Cold Chisel

Losin myself nightly  
No-ones tellin me just where you are  
Got me like a fever  
And movin like youve got too far  
Used to shine so brightly  
All is fadin now as time goes on  
Just when I think I hear you  
I look around and youll be gone You got this thing for leavin  
Just as Im about to really know someone  
Id like to help you with your searchin  
Dont you know youre not the only one Hangin all alone  
With your best kept lies  
Say youre comin home  
Give it one more try You let me know discretely  
I aint nothin when youre not with me  
Once Id have to call ya  
Now all thats lefts a mystery  
Sayin goodbyes only  
Gonna leave me wonderin endlessly  
Were you really here  
Or someone I am  
Yet to see You got this thing for leavin  
Just as Im about to really know someone  
Id like to help you with your searchin  
Dont you know youre not the only one Losin myself nightly (Hangin all alone)  
No-ones tellin me just where you are (With your best kept lies)  
Got me like a fever ( Say youre comin home)  
And movin like youve got too far ( Give it one more try ) Losin myself nightly  
Losin myself nightly  
Losin myself nightly
