

Dead Man's Bones

Broomstick Witches

DEAD MANS BONES you kill the beast
you eat the flesh
playin drums with a dead mans bones
in the scorching sun by the sea of oblivion
out of the purple sea from your darkest fantasy
comes the golden girl and you sodomize her on hot white sand
you kill the beast
you eat the flesh
playin drums with a dead mans bones
in the soothing moonlight by the sea of oblivion
you dance the night away with the golden girl
and she makes every fantasy a sweet living reality
