

Be Love

Kris Roche

So you steal it, escape away with nothing
You try to feel it but what you have is plastic
You burned your pocket and everything that's in it
On your search for something that is real Well, if you need love take the time and be love
Breathe it out, create love, see how things can turn
If you need love give yourself and be love
Breathe it out, create love, see how things can turn It's so empty but your room is full of people
It's so quiet but everyone's so loud, so loud And if you need love take the time and be love
Breathe it out, create love, see how things can turn
If you need love, give yourself and be love
Breathe it out create love, see how things can turn Inside you're ruining the mood
You're singing solitude
Forgetting all you knew
So look, look into the mirror
Swallow all your fear
Believe it's really near 'Cause if you need love forever
'Cause if you need love take the time and be love
Breathe it out, create love, see how things can turn
'Cause if you need love give yourself and be love
Breathe it out, create love, see how things can turn 'Cause if you need love take the time and be love
Breathe it out, create love, see how things can turn
