

Further

Boxbomb

Don't turn out the light
I want to see into the sky
Breathe into the night
Just watch the smoke rise

Til we see the sun
And I recall now
I feel the light
Burn slowly
It's lifting inside

And my kiss will take you further
And my kiss will take you further
Further away

Don't turn out the light
I wanna see into the sky
Breathe into the night
Just watch the smoke rise

Til we see the sun
And I recall now
I feel the light
Burn slowly
It's lifting inside

And my kiss will take you further
And my kiss will take you further
Further away
Further away
