## Sadist

I open my eyes - here's a new day  
I wish my hands will turn red once again  
I pant for your last breath - now is the time  
As my brain will call I am going to diveCrying, shouting  
Is just a drone in my mind  
Here's my mercy  
My razor - my distressI wanna see you naked, touch you heavily  
You should be glad, I had to chooseCrying, shouting  
Is just a drone in my mind  
Here's my mercy  
My razor - my distressI keep on following your steps  
But I won't leave the dhone  
It doesn't fit within  
I'm going to stop your beatI keep on following your steps  
But I won't leave the dhone  
It doesn't fit within  
I'm going to stop your...I keep on following your steps  
But I won't leave the dhone  
It doesn't fit within  
I'm going to stop your beat
