

# All I Want

## Cassius

As far as I can remember  
You've always been around  
Even when I didn't know you  
You were the one the only one All I ever wanted babe  
Is die with you one day  
Two as one  
Forever  
Just like yesterday I wanna be your lover  
Should we make it tighter  
Be a slave to your rhythm  
Should we make it out  
I wanna be your lover  
Should we make it tighter  
Be a slave to your rhythm All I want is just one thing  
It's to never see you sad  
I'll steal your tears and ride the lightning  
And the four winds to make them dry First and lost we'll always be babe  
Whatever we do  
Together forever  
Just like lovers do I wanna be your lover  
Should we make it tighter  
Be a slave to your rhythm  
Should we make it out  
I wanna be your lover  
Should we make it tighter  
Be a slave to your rhythm  
Should we make it out Back and forth  
Step forward  
Until four your eyes can't see  
Back and forth  
Step forward  
Stand before and count on me How can get to know you  
How can how can  
How can I get one more kiss  
How can how can  
How can I get one more miss  
How can how can
