

Breathing Your Love

Darin feat. Kat Deluna

Baby, you is the diamond that lasts forever
And I just can't take a single step without you
Baby, to you I'll always be a faithful lover
'Cause my heart can't make a single beat without you You make me fly, you get me high
You turn my world to such a better place
Your crazy touch, the sweetest rush
Is something to save my life I wanna spend my nights and days between your arms
Every day breathing your love
And even in my dreams I wanna be kissing your lips
Baby, breathing your love Breathing your love, love, love
Baby, breathing your love, love, love
Breathing your love, love, love
Baby, breathing your love, love, love Baby boo, only you can make me recover
The lost parts of me I thought they'd gone a long time ago
With you life runs like the best love letter
I was just an empty soul until you stepped in to my show You make me fly, you get me high
You turn my world to such a better place
Your crazy touch, the sweetest rush
Is something to save my life I wanna spend my nights and days between your arms
Every day breathing your love
And even in my dreams I wanna be kissing your lips
Baby, breathing your love Breathing your love, love, love
Baby, breathing your love, love, love
Breathing your love, love, love
Baby, breathing your love, love, love I wanna have that crazy love
Want it running in my blood
I want it taking over me, over me, over me I wanna spend my nights and days between your arms
Every day breathing your love
And even in my dreams I wanna be kissing your lips
Baby, breathing your love I wanna spend my nights and days between your arms
Every day breathing your love
And even in my dreams I wanna be kissing your lips
Baby, breathing your love Breathing your love, love, love
Baby, breathing your love, love, love
Breathing your love, love, love
Baby, breathing your love, love, love Breathing your love, love, love
Baby, breathing your love, love, love
