

Right About Now

[JT Hodges](#)

She's steppin' out of a steamin' shower
Hair drippin' wet with a towel around her
She's puttin' on her mango lotion
She'll set it down with the top left open, yea I know her well
She's watchin' that fire from the livin' room couch
Sippin' that red right about now She looks like a woman who's lost in love tonight
She's reachin' for someone and I know what he feels like
Right about now, right about now, right about now
I know I'm right about now, right about now If I know her she's drawin' him in
Drivin' him wild gettin' under his skin, yea
And if he's like me it tears him apart
When she whispers his name in the dark
I've gotta get her out of my head somehow
I hate the fact I'm right about now She looks like a woman who's lost in love tonight
She's reachin' for someone and I know what he feels like
Right about now, right about now, right about now
I know I'm right about now, right about now She's makin' plans, getting' on with her life
Makin' up for a lot of lost time She looks like a woman who's lost in love tonight
She's reachin' for someone and I know what he feels like
Yea I know what she feels like Right about now, right about now, right about now
I know I'm right about now, right about now, right about now
I hate I'm right about now, right about now, right about now
Right about now
