

Head Strong

Groundation

What was love from my father
Yes I'll teach to my son, yeah
What was love from my mother
Yes I'll teach to daughter

For you must remember my friend
The line of history is stretch and it is far beyond we
And still we stand time and time again
As a tribe today

Well now tell me if there is one thing
That you wanting
You got to let me know
Tell me something, tell me anything
Why did they all have to go
For if there is one thing
That you wanting
You got to let me know
Say hey something, say hey anything
Before I have to go
For Zion is awaiting

Jah people in this life
You've got to be head strong, head strong... head strong
Teach the children right
Or they won't live to long, to long, na nana to long
Jah people in this life
You've got to be head strong, head strong... head strong
Live up in the rights
Or you won't live to long, to long
Oh no, oh no

Long time ago
A future was pass and gone

What was love from my father
Yes I'll teach to daughter
What was love from my mother, mother, mother
Yes I'll teach pon my son, yeah

For which was them who say
Don?t get mixed up in our own knowledge of today
Give one hand of corn and they die
Teach them to grown corn
And you know they will survive

Well now tell me if there is one thing
That you wanting
You got to let me know
Tell me something, tell me anything
Why did they all have to go
For if there is one thing
That you wanting
You got to let me know
I say hey something, I say hey anything
Before I have to go
For Zion is awaiting

Jah people in this life
You?ve got to be head strong, head strong...hm head strong
Live up in the rights
Or you won?t live to long, to long, na nana to long
Jah people in this life
You?ve got to be be head strong, head strong... head strong
Teach Jah children right
Or they won?t live to long, to long oh no, oh no

Remember the mount Zion
Please remember the mount Zion
You must remember the mount Zion
Yo grown in my heart
