

# Rivals

## Usher

She got me throwin' Spades Ace with that mouth  
I guess only time could tell  
You gotta give me dirty love  
I guess I'm 'bout to  
When I can't find any words I like  
Look up and see the stars in a perfect line  
That feeling of love is a global sign So tell me how you feel (how you feel)  
Knowin' I see the world when I look in your eyes  
Your kisses are Duracell, they keep me energized  
Tired of goin' back and forth, baby I'm hypnotized  
You gotta a nigga, I'm in love on the low though  
I'm lookin' at you and I swear it's been a long road  
A great ass, a better mind, what a combo  
You know you pretty and you winnin' with the combo  
She kinda tipsy, we been drinkin', she's a light weight  
She love the way I'm puttin' panties in the right way  
But anyway let's get back to how I've been feelin'  
I just love the times when I'm beside ya  
Holdin' me down cause you're my rider  
I look in your eyes and I get higher  
There's nothin' in this world I hold tighter  
Without you I feel uneven Make everyday our love season  
Baby girl you know you're my rider  
That should be enough reason  
Call you baby that's only your title  
Cause I don't need no more rivals (you gotta give me dat)  
I put that on the Bible (you gotta give me dat)  
You're the only thing that I want (you gotta give me dat) Give me that feelin'  
Make everyday a love season  
Dirty lover you are my rider  
That should be enough reason  
I call you baby that's only your title  
Cause I don't need no more rivals  
I put that on the Bible  
I'ma love ya till my time's gone  
You gotta give me dirty love I've been here trust me, I've seen it all before though  
I told my ex for me relationships a no-no  
And here I am thinkin' we perfect like a photo  
You lookin' at me like right now you need some mo'-mo'

I know you ready and you willin' but that ain't my place  
Sign all you want and settle down, all on your face  
Feelin' startin' to get too familiar  
So cover up this broken love treason Make everyday a love season  
Dirty lover you are my rider  
That should be enough reason  
I call you baby that's only your title  
Cause I don't need no more rivals  
I put that on the Bible  
You're the only thing that I want  
Give me that feelin'  
Make everyday a love season  
Dirty lover you are my rider  
That should be enough reason  
I call you baby that's only your title  
Cause I don't need no more rivals  
I put that on the Bible  
I'ma love ya till my time's gone You see I see us side by side  
Like a visionary I can't see me fallin' (nothin' strange)  
Like a dictionary I can't read through all this  
(Eyes wide open)  
I still fall blind I don't know how will end  
Let's go back to the beginnin' Let's cover up this broken love treason  
Make everyday a love season  
Dirty lover you are my rider  
That should be enough reason  
Call you baby that's only your title (you gotta give me)  
Cause I don't need no more rivals (you gotta give me dat)  
I put that on the Bible (you gotta give me dat)  
You're the only thing that I want Ay, ay, ay
