Do You Like Me

All Caps

Your eyes like crashing jets
Fixed in stained glass
But not religious
You should pay rent in my mind
Say like the french say bon soir regret a demain
Do you like me I guess
White witness moves to petition the state of virginia for 27 prisons
While in bethesda an office flaming youth group singing
Firemen calling in
Lockheed lockheed martin marietta
Do you like me I guess
End of the lesson time for one question
End of the lesson time for one more question
I got a question.
Do you like me
