Kiss You

Sam Shrieve

Running on empty
Tooth and bone
I notice you tempt me
When we're alone
I come up to see you
You're not there
I don't care

I will kiss you goodbye
I will hold you tonight

Blessed if you be
Quiet as sound
Holding your breath after
You've been drowned
Poison as roses
Touched by you
It's what you do

I will kiss you goodbye
I will hold you tonight

Too tired to sleep
So you just lay
The company you keep to
You they pray
Helpless as you are
Beautiful
Sweet and cruel

I will kiss you goodbye
I will hold you tonight
