Generation Sap

Cyclefly

I made you, mislaid you
Then took the time to braid you
I waited and waited
Just stopped to knock youDown before me, reach before me
Never bore me, then ignore me
Kill the laughter, life there after's final chapter
Mocks you, knocks you downI wrote this then broke this
Then took the time to choke this
I waited and hated
Just stopped to knock youDown before me, reach before me
Never bore me, then ignore me
Kill the laughter, life there after's final chapter
Mocks youWhy?
Why?
Why?Down before me, reach before me
Never bore me then ignore me
Kill the laughter, life there after's final chapter
Mocks youWhy?
Why?
Why?
