I Don't Want To Take A Chance

Mary Wells

You say you love me, and I believe you do
You really really love me 'cause I love youI don't wanna take a chance
I don't wanna take a chance
I don't wanna take a chance and come out
Oh, and come out, and come out
Only losin' inI still remember the last love I had
Left me so blue and oh so sad
But I just wanna let you knowI don't wanna take a chance
I don't wanna take a chance
I don't wanna take a chance and come out
Oh, and come out, and come out
Only losin' inI've had lonely days oh and lonely nights
That's something that I don't wanna go through, no no
Just give my heart some time
And I know I'll make up mind
When I give it up, I'm gonna give it up to you
You, you you youOne day, baby, when my heart is stronger
And I'll have this fear no longer
Maybe then I'll come running to you
But right nowI don't wanna take a chance
I don't wanna take a chance
I don't wanna take a chance and come out
Oh, and come out, and come out
Only losin' in
