

Nothing on You and Me

[Tim Hicks](#)

There's something about a hard days work sure makes a beer taste better
Something about these dirty old boots and their worn in leather
Something about cheese, gravy and fries mixed all together, woahBut baby there ain't nothing like nothing on
me no nothing ain't better
Nothing like lying by the lake in the sunny weather
Nothing on you, nothing on me, all day underneath the shady tree yah
Nothing got nothing on you and meThere's something about Friday nights chilling with the boys in the bar
There's something about my dogs head hanging out the window of my car
There's something about putting brand new strings on this old guitar, woahBut baby there ain't nothing like
nothing on me no nothing ain't better
Nothing like lying by the lake in the sunny weather
Nothing on you, nothing on me, all day underneath the shady tree yah
Nothing got nothing on you and meSomething about the sun going down in the southern sky
There's nothing like the way it shines in your pretty brown eyes
There ain't nothing like nothing on me no nothing ain't better
Nothing like lying by the lake in the sunny weather
Nothing on you, nothing on me, all night underneath the cherry tree yah
Nothing got nothing on you and me
There ain't nothing like nothing on you and me
