

# Outta My System

## Bow Wow feat. T-Pain & Johntá Austin

They told me not to smoke drugs, but I wouldn't listen  
Never thought I'd get caught and wind up in prison  
Chalk it up to youth but young age I ain't dissin'  
I guess I just had to get it outta my system

Outta my system, outta my system  
Oh Lord I'd never do it now I know what I ain't missing  
Glad I went and got it all outta my system

The lustre of youth versus married security  
I'm glad I'm here now, but just between you and me  
I had to get it out and make the deals  
And learn to know how it feels, but that it ain't real  
Outta my system' outta my system

There's a way to have it all you know I ain't kidding  
Some things I know I'll never get outta my system  
If you don't live now, you ain't even trying  
And then you're on your way to a midlife crisis

Let it out anyway you feel  
You can feel it in your bones, but try to deny it  
Wipe it off your face but your eyes won't hide it  
You knew it all along but never made it clear

They told me not to steal cars, said I'd wind up in prison  
Thought I knew it all yeah I wouldn't listen  
Chalk it up to young but youth I ain't dissing?  
I guess I just had to get it outta my system

Outta my system, outta my system  
I'm glad I did it all then I know what I ain't missing  
Glad I went and got it all outta my system

I'm glad I do it all now I know what I ain't missing  
Glad I went and got it all outta my system  
I'm glad I do it all now I know what I ain't missing  
Glad I went and got it all outta my system
