

# What a Nice Place

## Halloween

Hypnotising and sacrificing, playing on our fears  
Eerie sound on dark lit grounds, strangers to our ears  
In our homes the spirits roam another night to give  
Late at night we hear them sing, what a nice place to  
live  
Chorus:  
What a nice place, nice place to live!  
Energised and mesmerised we play for you today  
Down those halls, turn through those doors,  
They search to get away  
The moon is watching, minutes wait,  
Another night to give  
Late at night we hear them sing, what a nice place to  
live!  
(Chorus) Solo Oooh! Penetrate and saturate the darkness of the night  
Shrieking cries that mystify added to our plight  
Late at night we hear them scream  
What a nice place to live! (Chorus)
