

# Butterfly

## Seven Day Jesus

You see me but it's not me  
There's somethin' underneath my skin  
I want to tear it all away  
And show the beauty that's withinBegin to come unglued  
And throw away the older me  
Just give it time and then you'll seeI wanna be a butterfly  
Flyin' in the sky with you, today, yeah  
I wanna lose this old cacoon  
I wanna do it soon and fly away, yeah, awaySo tired of always crawlin' up the tree  
To fall back down again  
This lovely place where I began  
It's not the place I'm gonna endUp so before you sum up all  
The missin' pieces from my head  
There's so much further I can getI wanna be a butterfly  
Flyin' in the sky with you, today, yeah  
I wanna lose this old cacoon  
I wanna do it soon and fly away, yeah, awayYour wind is underneath my wing  
It carries me away  
It's You, my God that makes me sing  
When I'm on my way, change a little every dayI wanna be a butterfly  
Flyin' in the sky with you, today  
I wanna lose this old cacoon  
I wanna do it soon and fly away  
You take what's old and make it new  
So I can be with you and fly away, yeah, away
