Higher, Pt. 1

Sponge

You think that your soul's on fire
You feel everyone's diseased
You don't ever need a reason
You're high on everything you seeYou don't need a thing
You want everythingIf it gets you high
Let it make you higher
If it drives you wild
It's your heart's desire
If it makes you highYou think everyone's a liar
They live life down on their knees
You live like there's no tomorrow
You don't rely on how you feelYou don't need a thing
You want everythingIf it gets you high
Let it make you higher
If it drives you wild
If it gets you high
Let it make you higher
If it drives you wild
It's your heart's desire
If it makes you high
If it makes you high
If it makes you highNo, we don't deserve to fake it
Yeah, we all deserve to make it
To make it on our own
No, we don't always have to take it
'Cause this life is gonna break me
Break meYou don't need a thing
You want everythingIf it gets you high
Let it make you higher
If it drives you wild
If it gets you high
Let it make you higher
If it drives you wild
It's your heart's desire
If it makes you high
If it makes you high
If it makes you high
