Goodbye We're Falling Fast

Aiden

Your pretty face
Disguised in a veil of fear
Drip with tears as I gave you one last
Kiss before the fall
(Before the fall)
Hold my hand, you're so beautiful
Let's escape from this life and end it all
On three, we're jumping from this ledge
This building's tall, I'm sure we'll wake up dead
But I still love her
Say goodbye, say goodbye
Yeah, we're falling fast
I'll live forever
Say goodbye, say goodbye
Yeah, we'll make it last
I'll live forever
Say goodbye, say goodbye
A picture perfect
Attempt at a quick and painless death
Came and meant something so much more
Than all the rest
(Than all the rest)
Hold my hand, don't forget to breathe
There's nothing left for you, there's nothing left to leave
On three, we're jumping from this ledge
This building's tall, I'm sure we'll wake up dead
But I still love her
Say goodbye, say goodbye
Yeah, we're falling fast
I'll live forever

Say goodbye, say goodbye
Yeah, we'll make it last
I'll live forever
Say goodbye, say goodbye
Yeah, we're falling fast
With these moments we hold dear
And the seconds we have left
(I know you're here inside my heart)

With these moments we hold dear
And the seconds we have left
(I know you're here inside my heart)
Hold your hand with mine
In this picture perfect light
There's one last chance for us tonight
I hold your hand with mine
Now everything is fine
Now say goodbye, say goodbye tonight
Say goodbye, say goodbye
Yeah, we're falling fast
I'll live forever
Say goodbye, say goodbye
Yeah, we'll make it last
I'll live forever
Say goodbye, say goodbye
Yeah, we're falling fast
I'll live forever
Say goodbye, say goodbye
